

Ford Transit R/AWD H3

MOON ORGANIZER

Assembly instructions

Tools required

Drilling machine

Screw gun

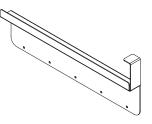

Adhesive tape

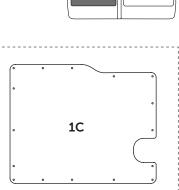

Scissors

Assembly of the right bottom organiser

Set of elements

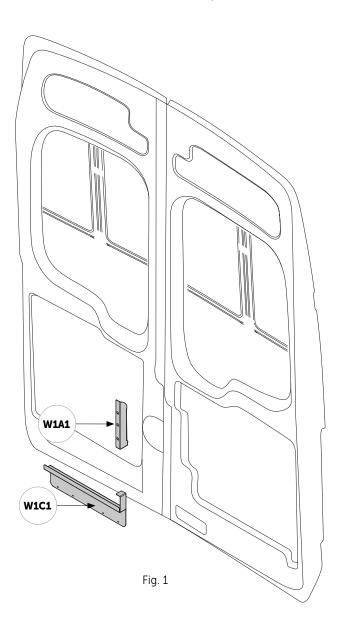

W1A1 – structure element 1x

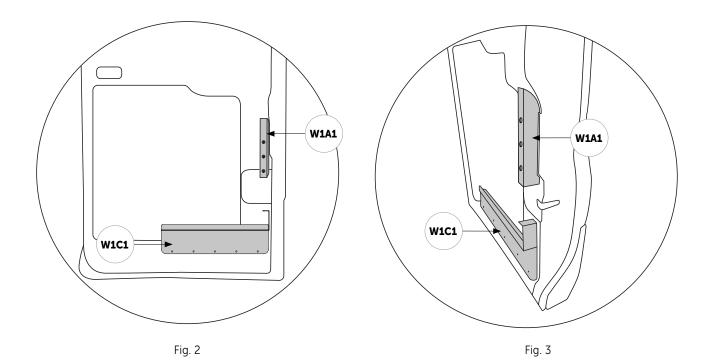

W1C1 - structure element 1x

Template 1C 1x

- W1A1 is mounted in the lower recess (Fig. 1) so that it is flush with the side of the door (Fig. 2) and flush with the edge of the door (Fig. 3). Mark the screw hole locations. Drill the holes and then screw in W1A1.
- The W1C1 element is mounted below the door handle area. Adjust W1C1 so that it is level with the previously installed W1A1 (Fig. 2). Mark the screw hole locations. Drill holes and then screw in the reinforcement element W1C1.
- 3. Stick template **1C** to the car body and to the ones screwed on earlier (**W1A1** and **W1C1**).
- 4. Mark all mounting hole locations so as to leave a mark on the bodywork and on W1A1 and W1C1. The mounting holes should be of a diameter (4 mm to 6 mm) suitable for screws (not included). Remove the template. Drill the mounting holes with a suitable drill bit.
- 5. Apply the Moon Organizer and screw it to the bodywork and the previously installed components with screws.

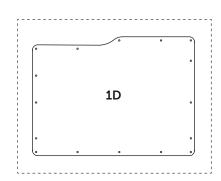

Assembly of the left bottom organiser

Set of elements

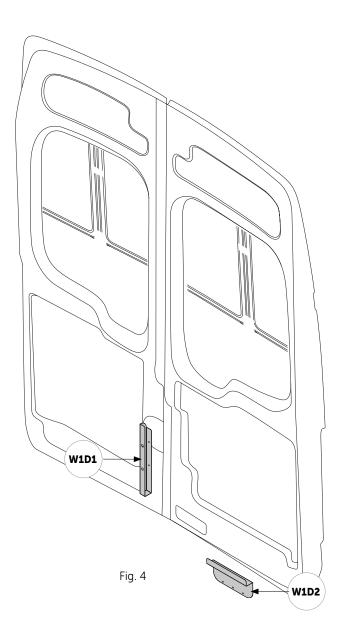

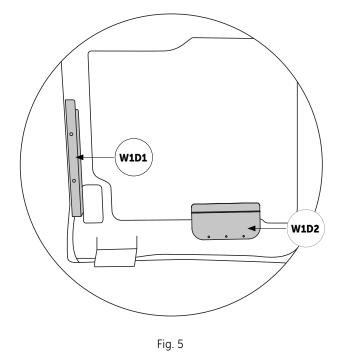

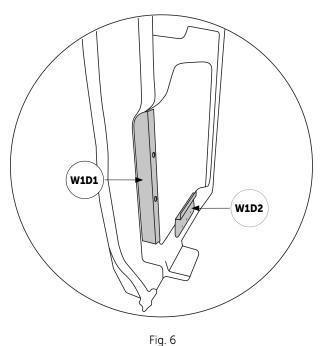

W1D2 – structure element **1**x

Template **1D 1x**

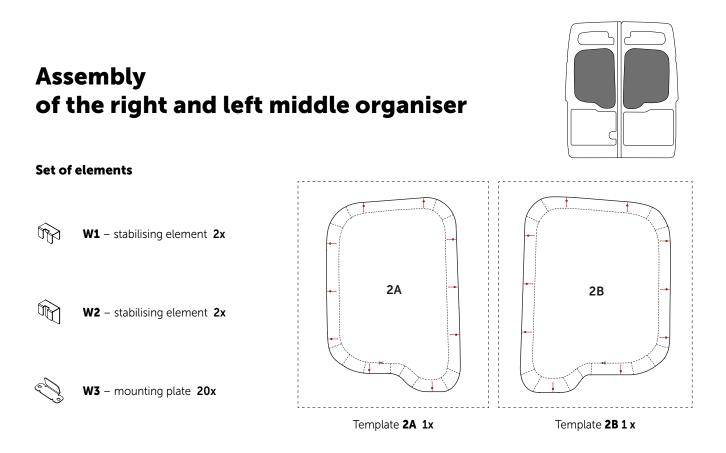

- Position W1D1 so that it is vertically flush with the side of the door (Fig. 4 and Fig. 5) and the matching cut-out covering the embossing (Fig. 6). Fit W1D2 in the door embossing (Fig. 4, Fig.5). Mark the screw hole locations. Drill the holes and then screw in W1D1 and W1D2.
- Stick W1D1, W1D2 and template 1D to the car body.
- Mark all mounting hole locations so as to leave a mark on the bodywork and on W1D1 and W1D2. The mounting holes should be of a diameter (4 mm to 6 mm) suitable for screws (not included). Remove the template. Drill the mounting holes with a suitable drill bit.
- 4. Apply the Moon Organiser and screw it to the bodywork and the previously installed components with screws.

4 | Van Der Moon Moon Organizer Ford Transit R/AWD – Assembly instructions

- 1. Cut out the centre of sheet **2A** and/or **2B** and trim the sheet according to the dotted lines. Stick the cut-out template **2A** and/or **2B** to the car body.
- 2. Fold sheet **2A** and/or **2B** to fit the inner cavity.
- 3. The red lines are an extension of where the mounting hole in the Moon Organizer is located.
- 4. Take 1 **W3** mounting plate and position it centrally on the red line of the sheet. Slide mounting plate **W3** up and down (along the red line) to position the mounting plate so that it is flush with the sheet above the recess in the door.
- 5. Mark the locations of the mounting plate holes on the side wall of the door recess.
- 6. Repeat steps **4** to **5** until all mounting locations have been marked.
- 7. Remove the template.
- 8. Drill the mounting holes in **W3** using a special drill bit. Fit mounting plates **W3**. If necessary, the mounting plate should be dogged (or bent) to perfectly match the angle.
- 9. Apply the organiser to the car body and make sure it adheres correctly. Clean and degrease the surface where reinforcements **W1** and **W2** will be stuck to the bodywork. Peel off the mounting tape and stick **W1** and **W2** to the bodywork (Fig. 7 and Fig. 8).
- 10. Drill elements **W1** and **W2**.
- 11. Using the mounting screws, screw the Moon Organizer to the previously installed W1, W2, W3.

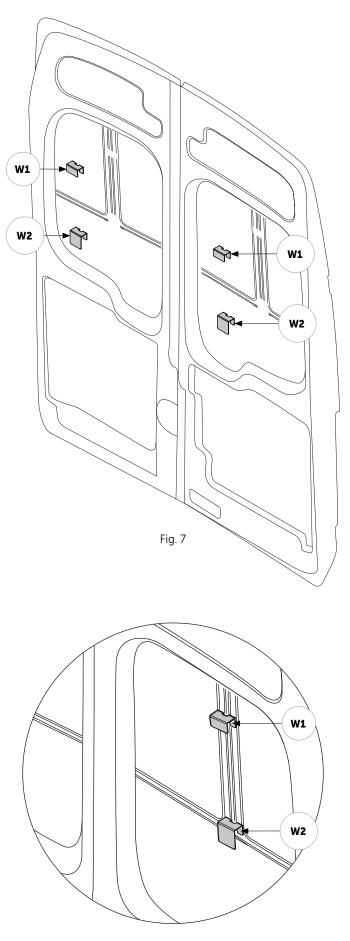

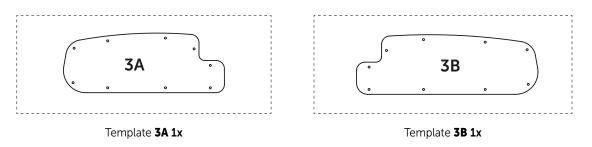

Fig. 8

Assembly of the right and left upper organiser

Set of elements

- 1. Stick the cut-out template **3A** and/or **3B** to the car body.
- 2. Mark all mounting hole locations on the bodywork.
- 3. Remove templates.
- 4. Drill the mounting holes using a special drill bit.
- 5. Apply the Moon Organizer and screw it to the bodywork with the appropriate sheet metal screws.
