Compatible car models:

universal

1 mm	0,04 in
1 kg	2,20 lb
1 l	0,26 gal

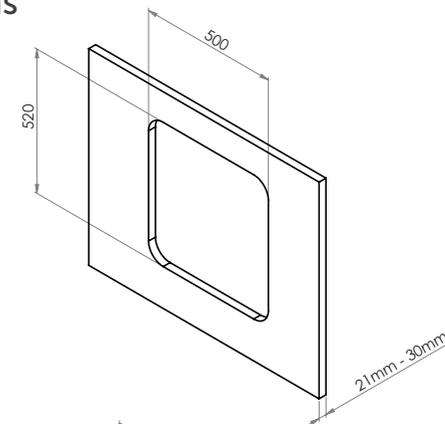

The necessary tools

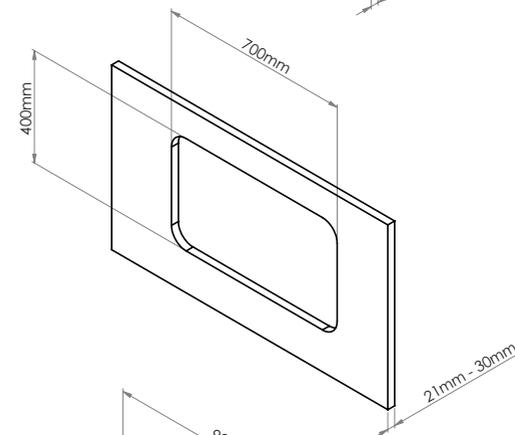

To install the Moon Window, you will need a Phillips screwdriver.

Technical specifications

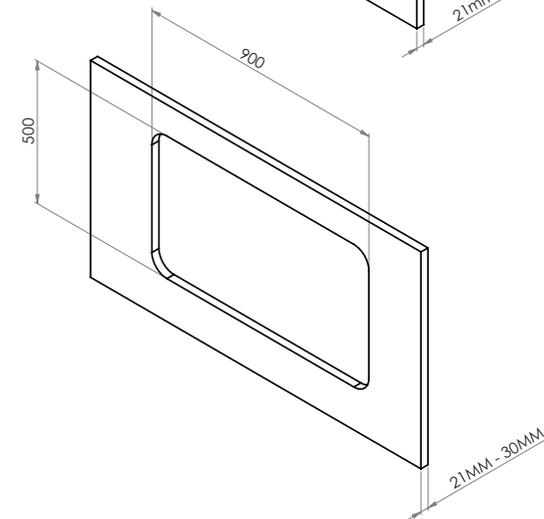

Moon Window (520x500)

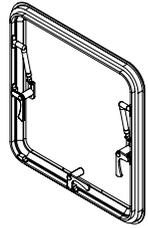

Moon Window (400x700)

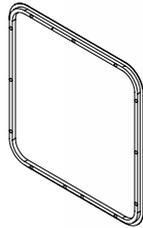

Moon Window (500x900)

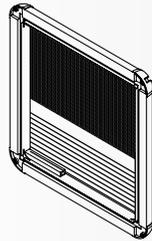

Set of parts

A – window
1x

B – mounting frame
1x

C – blind/mosquito net
1x

D – cap
4x

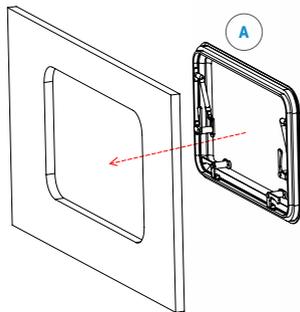

E – screw (4.0x25mm)
4x

F – screw (4.0x20mm)
15x

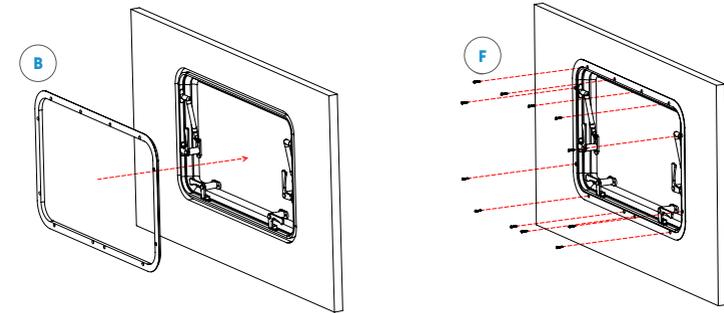

STEP 1

Insert window **A** into the previously cut opening from the outside.

STEP 2

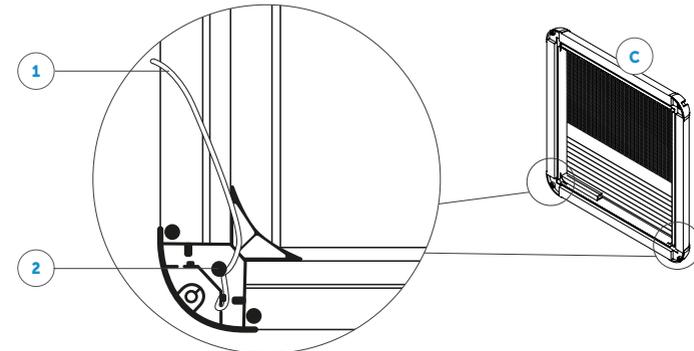

Then fit the mounting frame **B** from the inside and fix it with screws **F**.

STEP 3

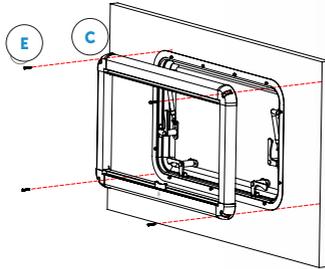

IMPORTANT!

Before installing component **C**, check the tension of the blind and mosquito net. If necessary, adjust them using the regulating cords **1**. The white cord is used to adjust the blind – it is essential to adjust the cords to the same length, so the blind aligns parallel to the window horizontally. After setting the appropriate tension, tie the cord on the small knob **2**. Repeat the same process with the black cord, which is used to adjust the mosquito net.

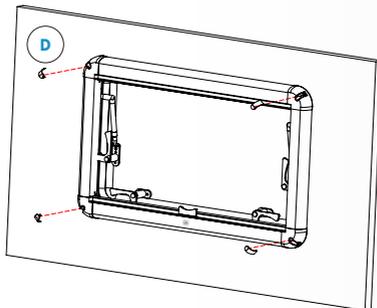

STEP 4

Place the assembled frame **C** from the inside and fix it with screws **E**.

STEP 5

Install the caps **D**.

Cleaning

Clean with water and soap.

Precautions

Make sure you have read and understood the instructions before installing the Moon Window.

Transport and storage

Products are packed in cardboard boxes.
During transport, they should be placed horizontally or vertically.
Transport in the original packaging.

Disposal of packaging

Packaging is made of recyclable cardboard, so do not throw them away. Store them in waste bins for paper or in special containers for cardboard packaging.
